International Journal of Bioscience, Biochemistry and Bioinformatics

Volume 5, Number 4, July 2015

- Choline Phosphate Functionalized Cellulose Membrane Developed as Potential Hemostasis Dressing Based on a Unique Bioadhesion Mechanism** **211**
Xiaoqiang Yang, Na Li, Jayachandran N. Kizhakkedathu, Donald E. Brooks
- Trend Analysis of HIV Infection Rates amongst Generation X Black African Women in South Africa during the Period 2001 to 2010** **221**
Wilbert Sibanda, Philip D. Pretorius
- Co-limitation of Soil Iron in Root Nodulation and Chlorophyll-Bean Formation of Yardlong Bean Plants in Tropical Humid Environment** **232**
Hong Li
- Development of Fluorescent Phycocyanin-Cu²⁺ Chemosensor for Detection of Homocysteine** **241**
Preamsak Puangploy, Sukunya Oaew, Werasak Surareungchai
- The Stability of Alpha-Helix of the Helical Antimicrobial Peptide in Polar/Apolar Solvent** **249**
Peng Zhou, Cuixia Chen, Jingkun Bai, Hongde Zhao, Dong Wang
- Isolation and Characterization of *Wolbachia* (Rickettsiales: Rickettsiaceae) from Several Economic Importance Parasitoids (Hymenoptera: Braconidae)** **256**
Muhamad Azmi Mohammed, Ameyra Aman Zuki, Suhana Yusof, Salmah Yaakop
- Systems Genetics of Complex Diseases Using RNA-Sequencing Methods** **264**
Gianluca Mazzoni, Lisette J. A. Kogelman, Prashanth Suravajhala, Haja N. Kadarmideen
